The Trust will invest in a policy issued by Investors Trust Segregated Portfolio of Investors Trust Assurance SPC, which will in turn invest the net proceeds according with investment directions given by you to the Trustee. Please see Trust Deed and Policy for details.

Neither Investors Trust, Credit Suisse or any other custodians, nor any of their subsidiaries or affiliates in no way guarantee funds or investment performance, unless specifically noted on certain structured products. Plan values are subject to surrender charges for early termination. Please refer to Trust deed and illustration for details. The value of any investment and the income for it can fall as well as rise, as a result of market and currency fluctuations and you may not get back the amount originally invested.

#### Limitations & Expectations

Historically the returns generated by the world equity markets have outperformed fixed deposits over the long term, but due to the general nature of variable investment returns and the possibility of exchange or interest rate fluctuations, the value of investments and the yields from them may go down as well as up. This is a medium to long-term contract that assumes annual contributions are maintained. If you terminate the contract early you may be subject to the surrender charges depicted in your illustration. Some of the plan characteristics discussed above are subject to limitations. Please consult with your introducer or refer to the plan description pages for more information.
